

Name: Jenesha Jezlynn

Student ID: 1211110599

Faculty: FCM

1. I don't drive so I don't know
2. Yes, I have carpoolled before, it was okay and the coordination was well planned
3. Carpooling with my friend's in their car and finding parking in MMU was quite tough and tiring because of the lack of parking spaces, having to circle around the parking spaces in MMU, it is frustrating
4. It would be uncomfortable to share rides with strangers but it will be convenient especially to MMU.
5. Yes I definitely think it is because then MMU student wouldn't waste time finding that empty parking space for hours and they'll have ample of time to decide if they want to drive their car there or not
6. Safety features are important in apps especially features like emergency contacts that users could immediately use to reach in cases of emergency, SOS buttons are helpful as well, I can't think of anything else
7. Finding them instantly are far more convenient because I personally hate waiting
8. I think it's important to show rider's contact details like name, phone number, and the car number plate for users to keep as safety measures in case of possible circumstances
9. Yes I do
10. I'm fine with digital payments
11. Yes, as you are able to track and be aware of the driver's driving movement to avoid suspicious activities
12. Yes, as it is more reasonable than individuals pricing it at however they wish.
